

Working together to help your clients tackle day-to-day HR and compliance challenges

State laws are constantly changing, employee needs are constantly shifting and trying to stay on top of everything takes valuable time that organizations may not have.

What can Mineral® help your clients with:

- Operating successfully in multiple states
- Addressing harassment, safety, diversity and inclusion training
- Building and maintaining an employee handbook with multi state and Spanish language
- Keeping track of new laws and regulations
- Answering questions in real time via a live HR-certified expert
- Providing access to forms, tools, templates and law alerts specific to your clients' organization

Mineral helps employers mitigate these risks and stay compliant without using up their already limited resources.
